EDUCATION

DREXEL UNIVERSITY **PHILADELPHIA, PA**
Bachelor of Science in Computer Science (Honors) *Cumulative GPA: 3.5 (Dean's List)*
Minor in User Experience & Interaction Design (UXID). ***September 2022 – June 2027***

PROFESSIONAL EXPERIENCE

TAURUS TILES PVT.LTD **Morbi, India**
Business Technology Intern ***April 2025 – July 2025***

- Built automation scripts using macros eliminating manual reporting tasks, increasing data accuracy & reduced turnaround time by 25%
- Integrated stock-tracking workflows with internal databases, improving real-time visibility and accelerating supply decisions
- Enhanced and maintained the company's internal and client-facing websites by optimizing layouts, updating dynamic content, and improving UX consistency

EXELON **Delaware, DE**
Project Management (PMO) Co-op ***April 2024 – October 2024***

- Designed and deployed interactive Power BI dashboards to translate complex operational data into actionable insights for executives
- Optimized SQL queries & automated data pipelines, enhancing reporting accuracy and reducing manual data processing efforts by 15%
- Developed a Request Tracker system using Power Automate, streamlining intake workflows across departments and cutting response time for project requests by 25%
- Recognized as 1st place winner among interns for an innovative presentation demonstrating process improvements within the company

FINANCIAL APP FOR FIDELITY INVESTMENTS **Philadelphia, PA**
Software Developer and UI/UX Designer ***September 2023 – December 2023***

- Collaborated with Fidelity's Team to engineer a cloud-based fintech prototype integrated into their next-gen brokerage platform
- Developed front-end and back-end functionality using JavaScript, Node.js, REST APIs, and cloud services to enable real-time stock and ETF trading via Discord's messaging interface, enhancing usability for Gen-Z investors.
- Utilized Agile workflows and Jira to manage sprints, track deliverables, and present a functional prototype to the higher management

AMERICAN CAMPUS COMMUNITY **Philadelphia, PA**
Resident Administrative Assistant (RA). ***October 2023 – Present***

- Facilitated a community of 1,000+ residents, providing leadership in residential management, finance, office administration, and leasing
- Managed front desk workflows and resident databases using Salesforce, streamlining communication, issue tracking, and reporting
- Supported marketing and outreach by organizing campus tours and community events, contributing to a 5% increase in lease signings

PROJECTS

SURFSPOT ***September2025 – Present***

- Building a platform using Node.js, Express, & PostgreSQL, enabling users to access live beach conditions, tips, and local surf events
- Integrated Google Maps & Meteo Marine APIs with dynamic rendering, improving surf data visualization and load efficiency
- Streamlined beach search and filtering logic using server-side pagination, reducing query latency by 15%

CAMPUS CONNECT.LY APP ***January 2024 – June 2024***

- Led full-stack development of a college-focused web app within a cross-functional Agile team, improving user accessibility
- Utilized expertise in full-stack web development, employing HTML, CSS, Java and JavaScript, responsive interfaces in Figma and Canva and integrated PostgreSQL for data management
- Improved software reliability through Test Driven Development and applied SDLC best practices, collaborating with Scrum Masters during sprint reviews and maintaining version control via Git.

STUDENTS TACKLING ADVANCED RESEARCH (STAR) ***June 2023 – August 2023***

- Conducted research in the field of Human Computer/Robot Interaction under mentorship of Interim Dean Prof. Ellen J Bass
- Developed 3D agricultural robot prototypes using Blender, visualizing operational behaviors & interaction models for field analysis
- Analyzed function allocation frameworks to identify optimal task distribution between humans and autonomous systems.
- Presented findings internationally and at Drexel's STAR Showcase; published an abstract in UREP's Annual Research Book.
